## PREFACE

Viet POS RACK – a subsidiary corporation of Viet Duc Tri Corporate Group – offers solutions for warehouse racking system.

Viet POS RACK was founded on October 01st 2010 throughout the technology integration period in Vietnam. However, the fierce competition of the current market has become the challenge as well as the chance for us to make the continuous progress to set our foothold in the market. We choose our own way to build our reputation in the business by putting the Products' quality and prestige as our top priority. Therefore, we apply advanced technology as well as comprehensive solutions for bringing the best products to our customers.

Viet POS RACK's staffs is making continuous efforts for making our enterprise becoming one of the best Economic – Industry Group providing the best warehouse racking system in Viet Nam as well as reaching out the international market.

We commit to offer the most competitive prices with high quality products applied the latest technology in comparison with those of other well-known international companies. All the materials and equipment are selected and imported from reputed suppliers in the world and applied advanced technology during the production process. Moreover, all of Viet POS RACK our staffs are experienced and well-trained.

Viet POS RACK's solutions and products will provide the comprehensive modern technology which will satisfy all customer's requirements.

## VIET POS RACK BUSINESS STRATEGY

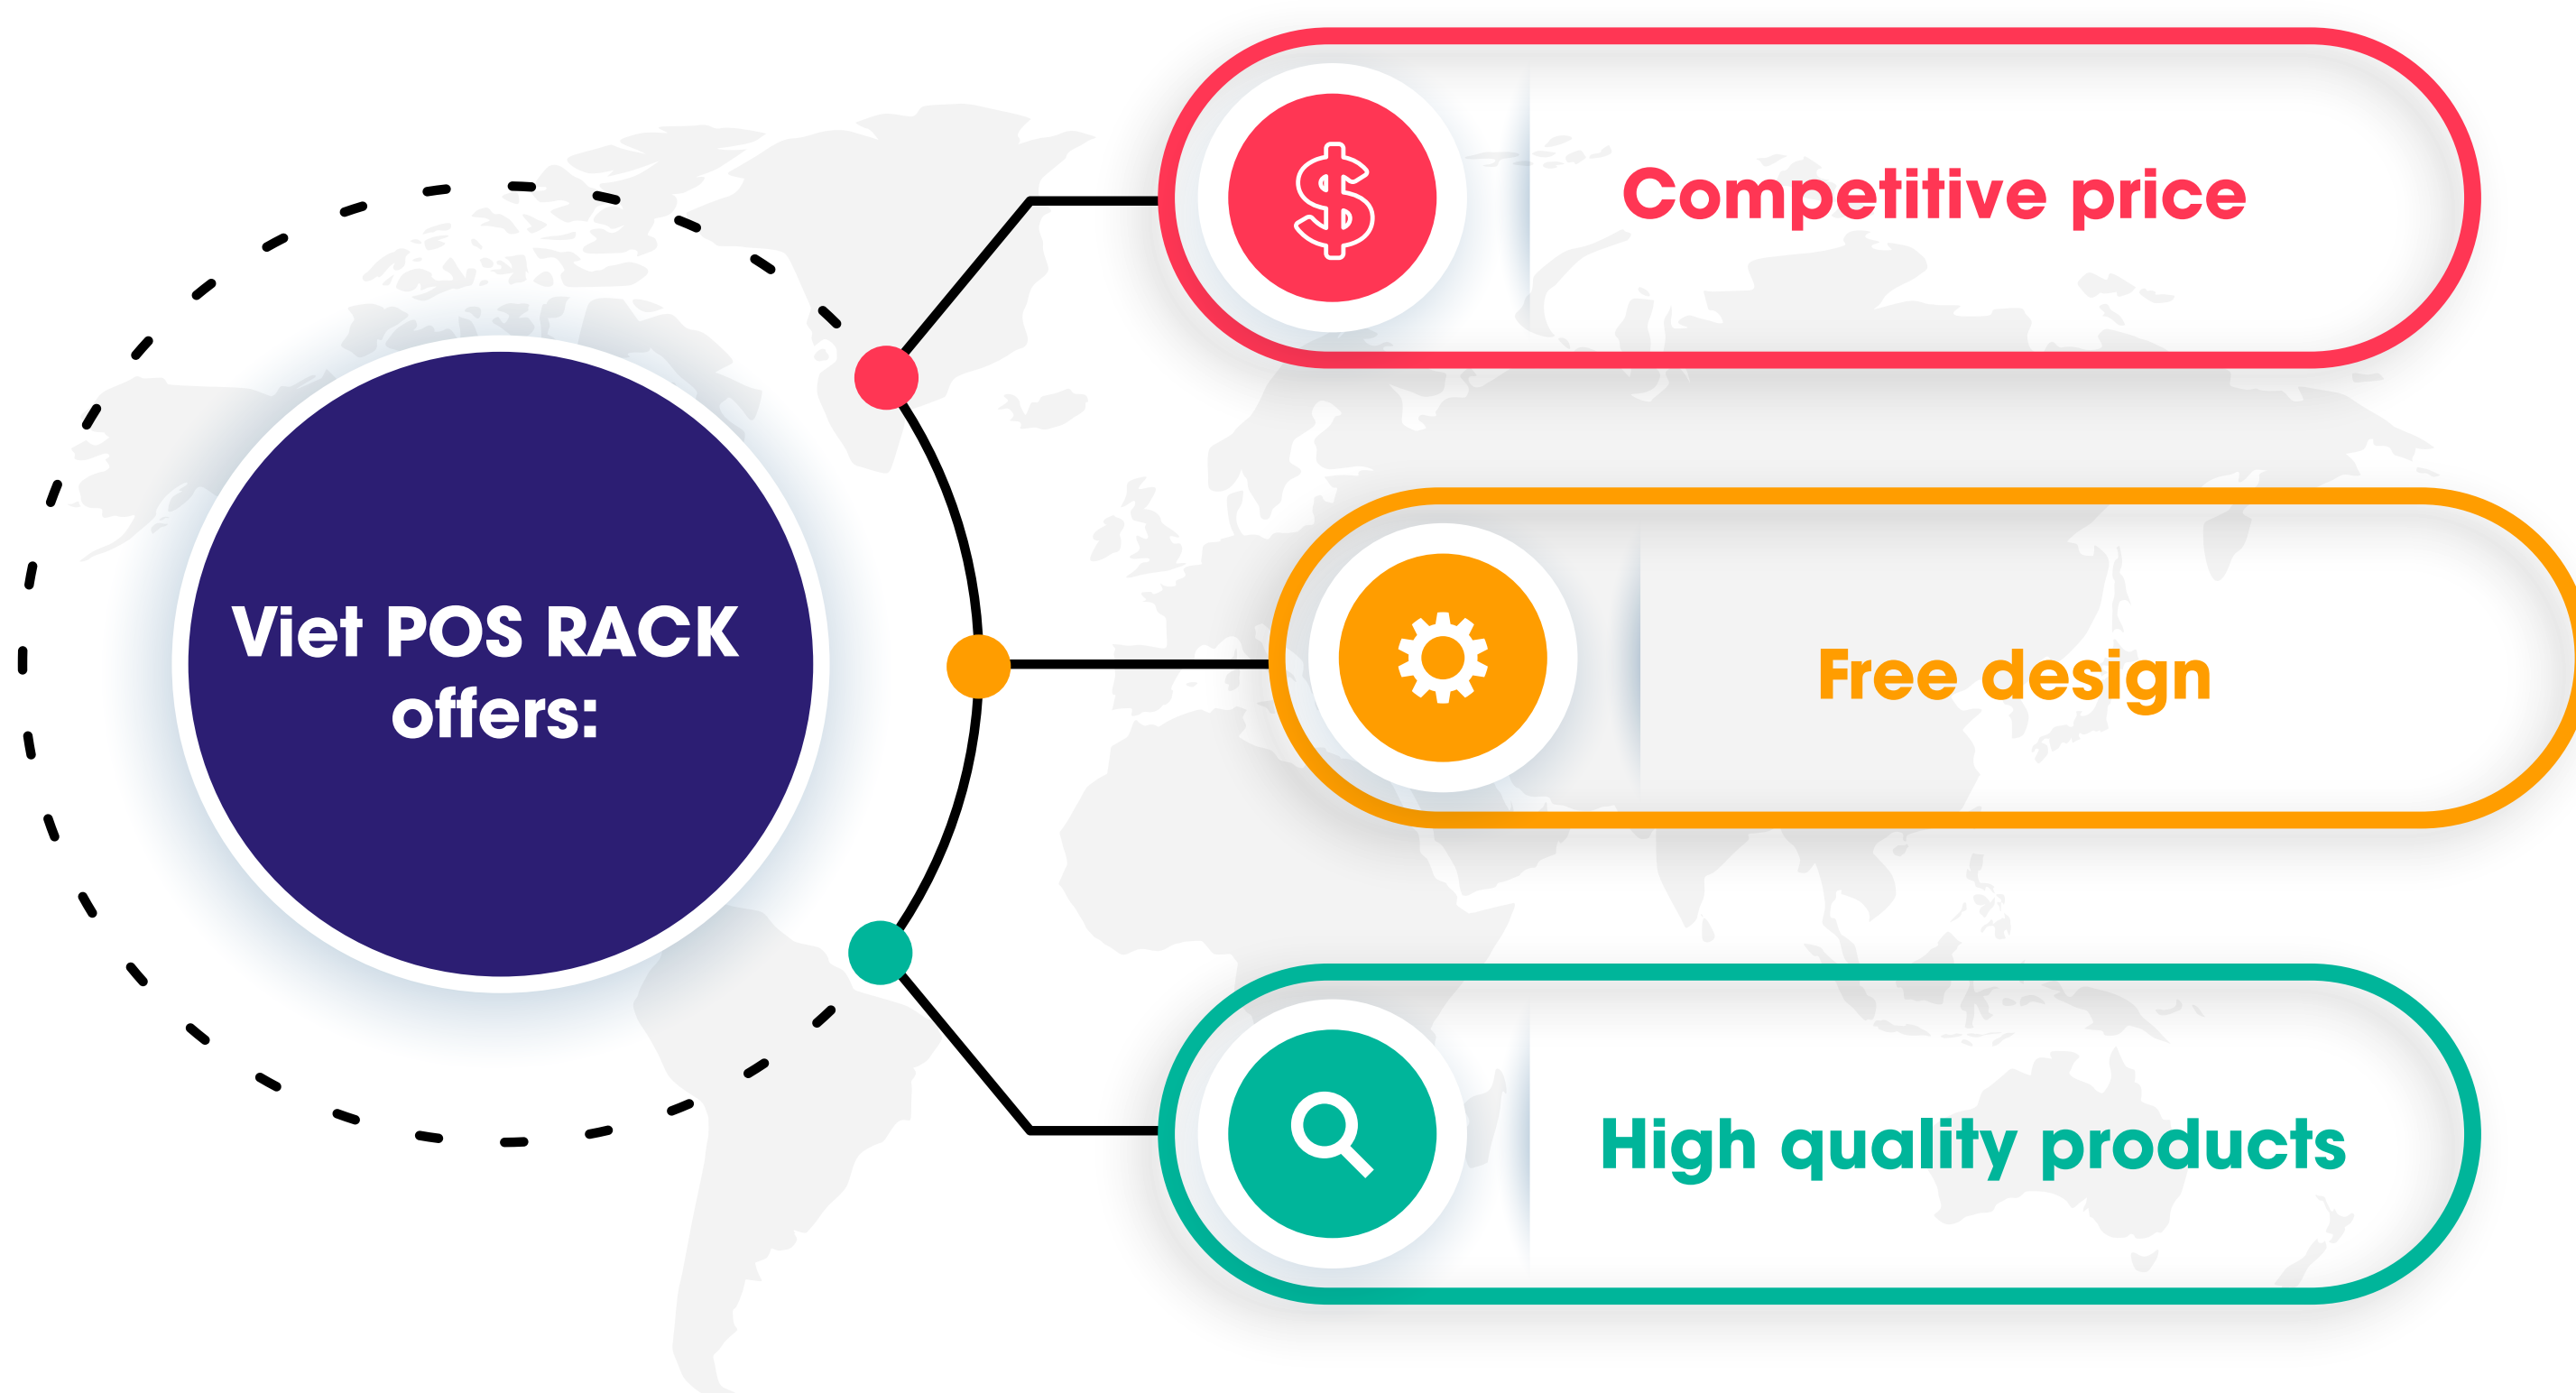

“

Viet POS RACK's products and services are created in the combination of the world's latest advanced technology and Vietnamese creation. As a result, we bring the most competitive prices with international quality.

Our business strategy is the harmony combination among the owner, the workers, our cooperators and our customers based on loyalty and benefits of all parties

We build a team with high morality, skillful staffs with good manner working in professional working environment.

”

## HEAVY DUTY SELECTIVE PALLET RACKS

Heavy Duty Selective Pallet Rack – a type of heavy duty rack for goods storing – is designed flexibly aiming to meet the all the demands of storing goods with different sizes and weight; and is suitable most types of current common forklifts.

Advantages of Heavy Duty Selective Pallet Racks: simple structure, lightweight, cost-saving, convenient for installation and using, suitable for storing different types of goods.

Heavy Duty Selective Pallet Rack is the ideal solution for busy warehouses where loading and unloading goods occur frequently. Goods are easily approached in all sides of the rack. Any large or small enterprise can own or upgrade a Heavy Duty Selective Pallet Rack system, because it is low investment cost.

Heavy Duty Selective Pallet Rack is commonly used in most of the large warehouses as it is easy for installation and flexible for different warehouse's structure.
