## PREFACE

Viet POS RACK – a subsidiary corporation of Viet Duc Tri Corporate Group – offers solutions for warehouse racking system.

Viet POS RACK was founded on October 01st 2010 throughout the technology integration period in Vietnam. However, the fierce competition of the current market has become the challenge as well as the chance for us to make the continuous progress to set our foothold in the market. We choose our own way to build our reputation in the business by putting the Products' quality and prestige as our top priority. Therefore, we apply advanced technology as well as comprehensive solutions for bringing the best products to our customers.

Viet POS RACK's staffs is making continuous efforts for making our enterprise becoming one of the best Economic – Industry Group providing the best warehouse racking system in Viet Nam as well as reaching out the international market.

We commit to offer the most competitive prices with high quality products applied the latest technology in comparison with those of other well-known international companies. All the materials and equipment are selected and imported from reputed suppliers in the world and applied advanced technology during the production process. Moreover, all of Viet POS RACK our staffs are experienced and well-trained.

Viet POS RACK's solutions and products will provide the comprehensive modern technology which will satisfy all customer's requirements.

# VIET POS RACK BUSINESS STRATEGY

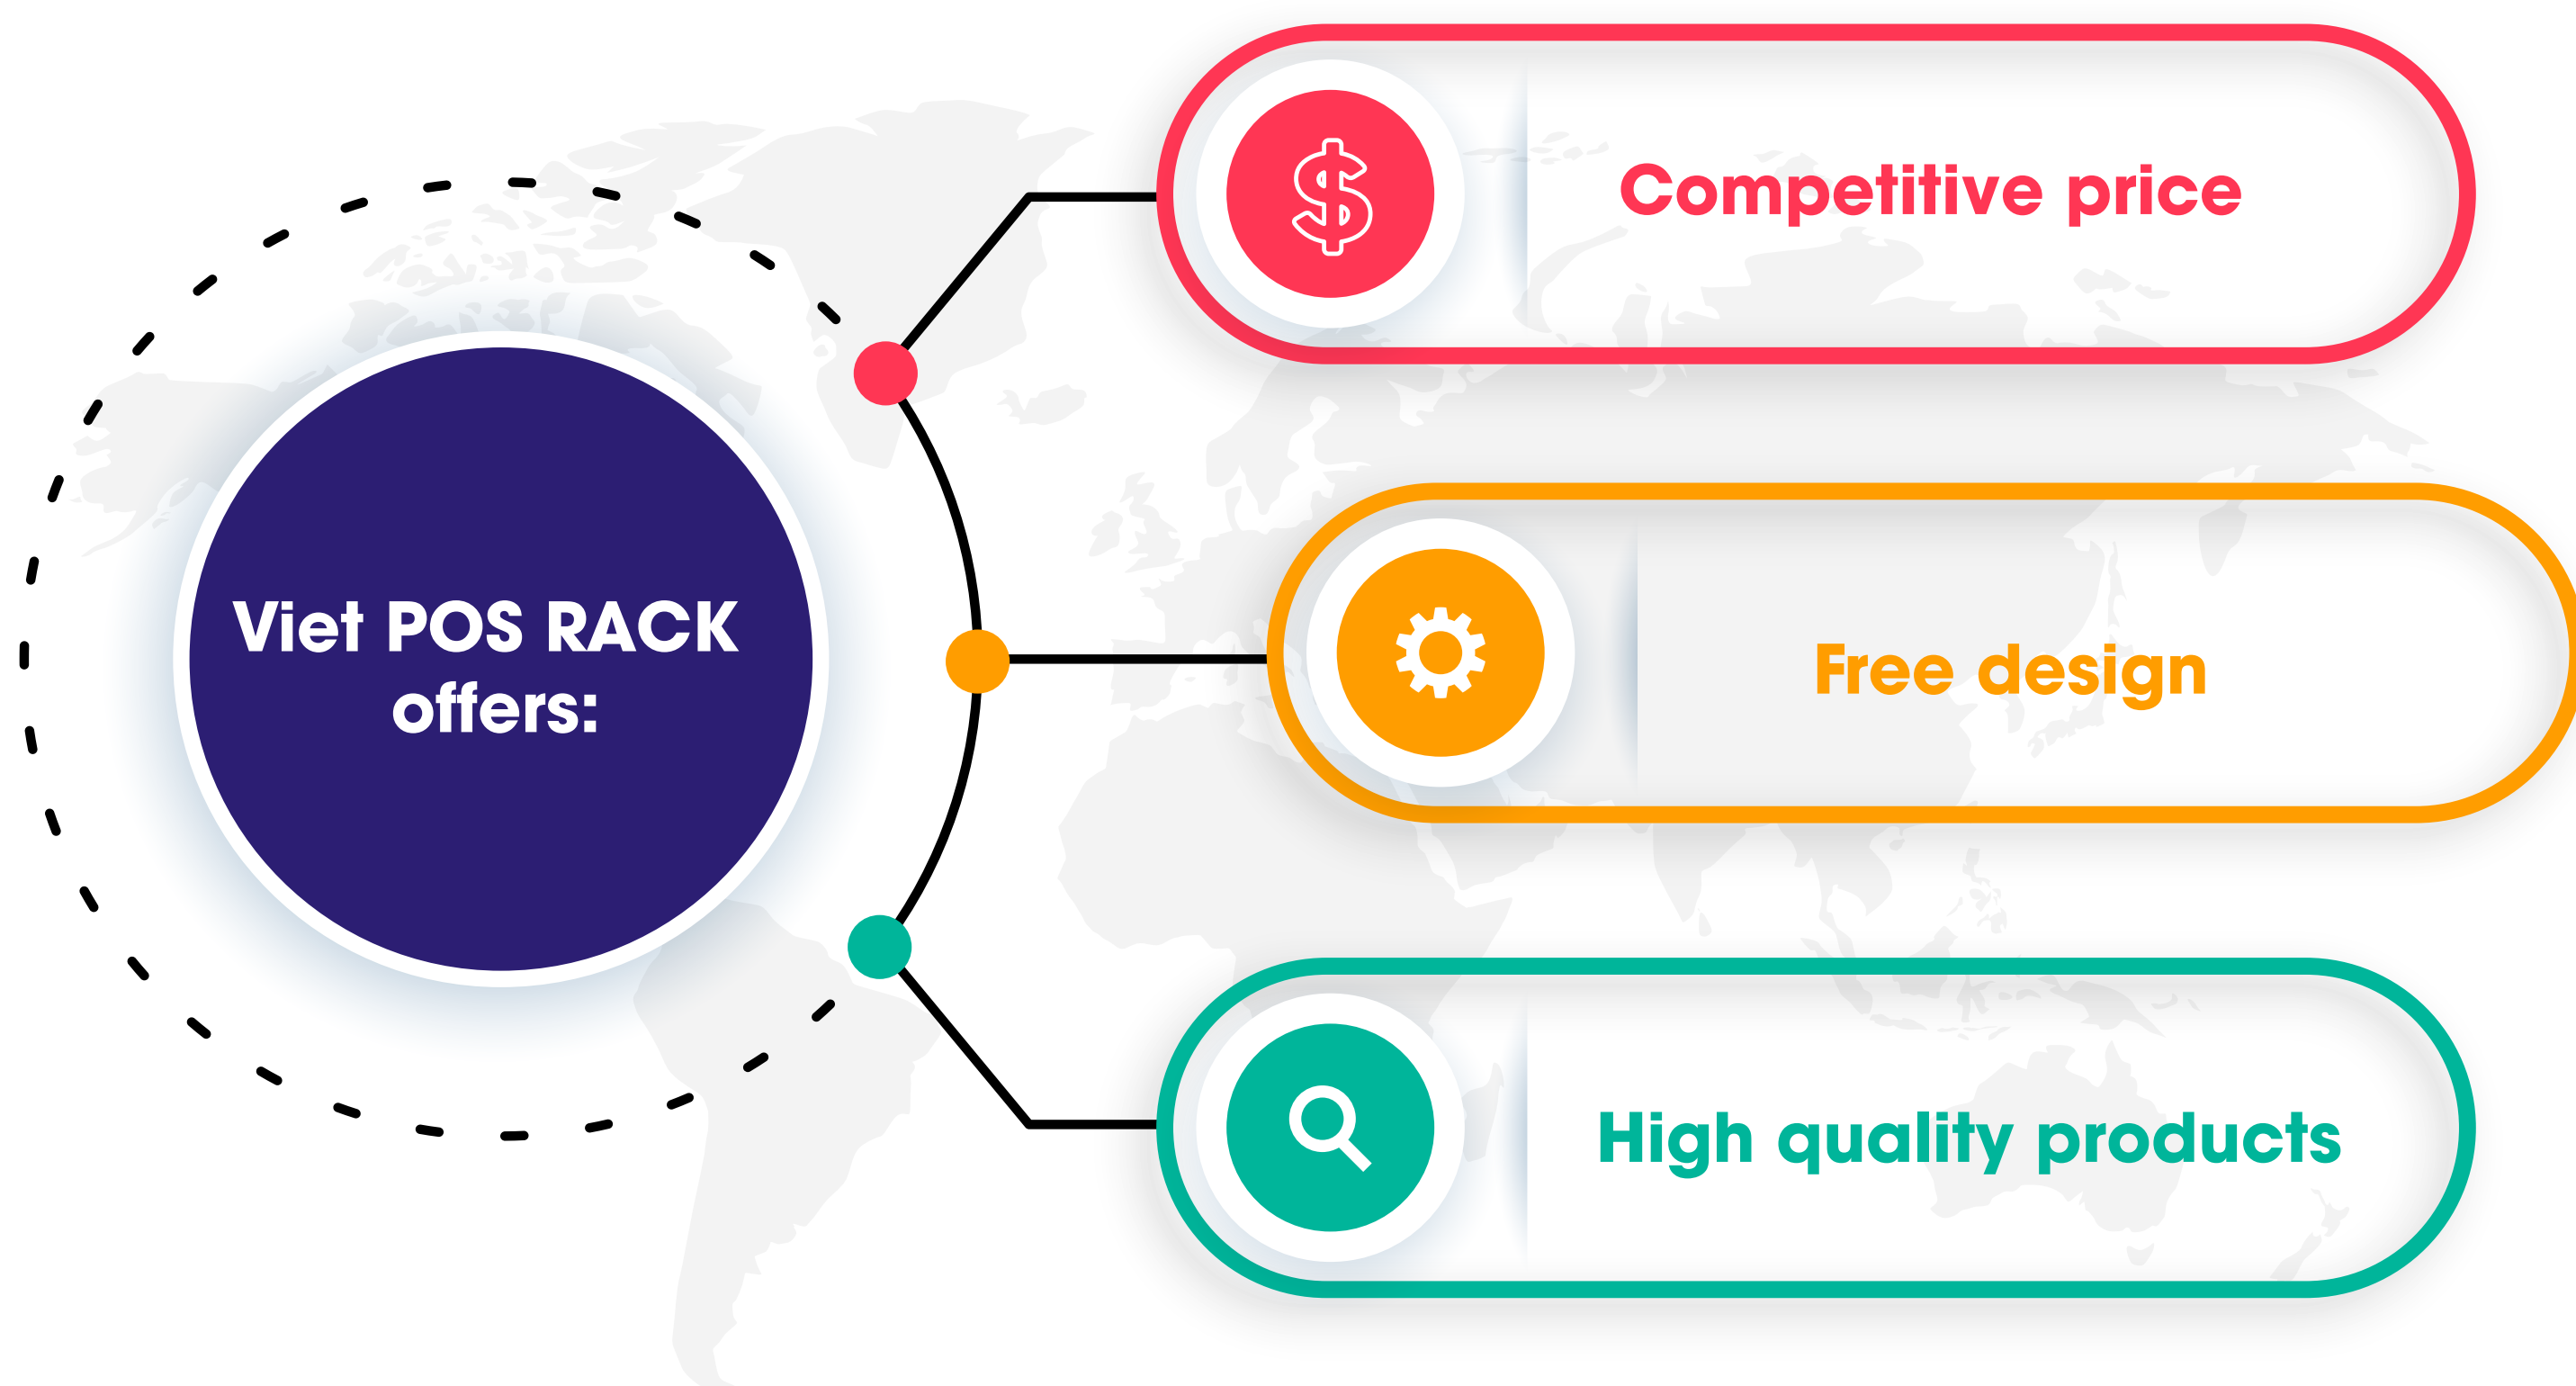

“

Viet POS RACK's products and services are created in the combination of the world's latest advanced technology and Vietnamese creation. As a result, we bring the most competitive prices with international quality.

Our business strategy is the harmony combination among the owner, the workers, our cooperators and our customers based on loyalty and benefits of all parties

We build a team with high morality, skillful staffs with good manner working in professional working environment.

”

## HEAVY DUTY INDUSTRIAL DRIVE-IN RACK

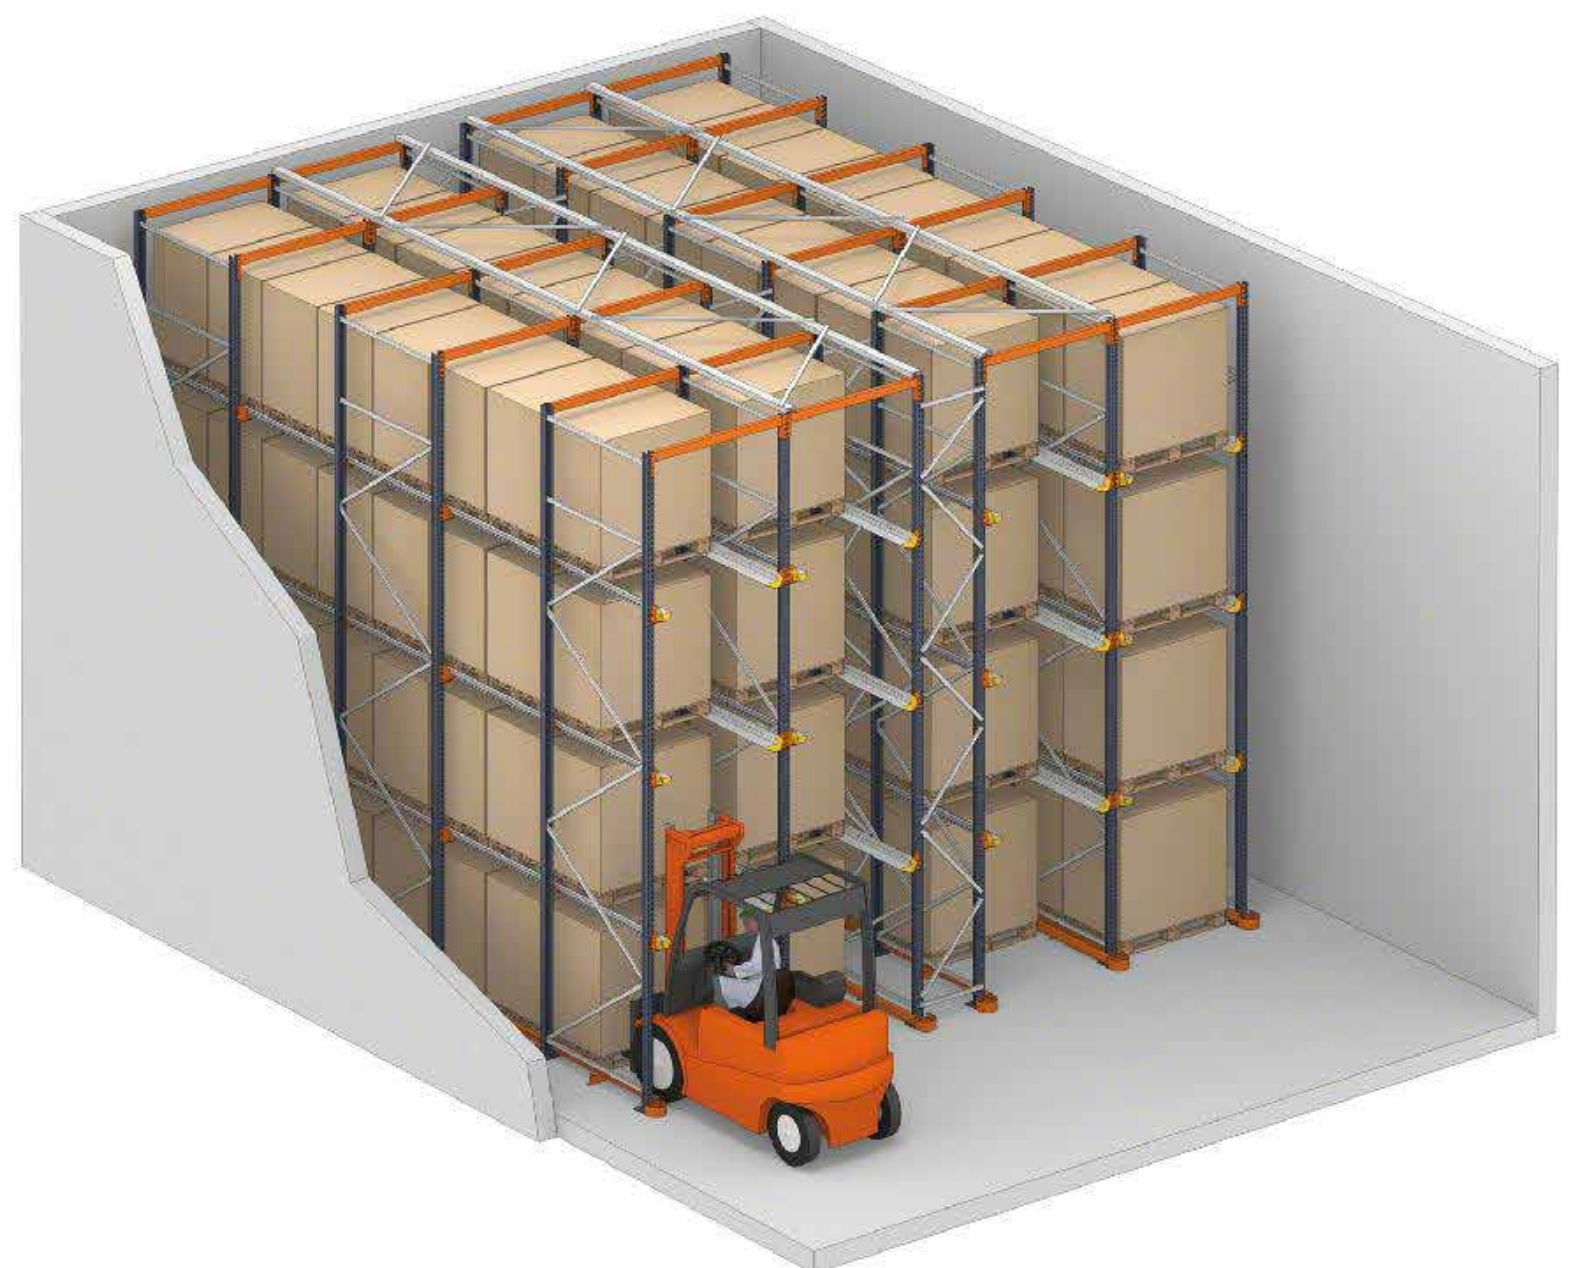

Heavy Duty Industrial Drive-in Rack is the ideal solution for dense storage purposes by minimizing the aisle spaces. The forklift must move directly into the rack for unloading goods. Each layer is installed a structural rail system for moving the pallets into the rack.

Drive-in Rack is designed for the warehouses using only one pallet size. The inventory management for this type of rack is LIFO, Last-In, First-Out.

Drive-in Rack is used for storing similar goods and this shall be your ideal warehouse solution if you are considered things as below:

- You need to store a large quantity of similar goods.
- It is not important to select any particular good from your storage.
- The order of loading and unloading goods is unnecessary.
- Cold warehouses need to increase the storage density to reduce operation costs.

## CHARACTERISTICS OF DRIVE-IN RACKS:

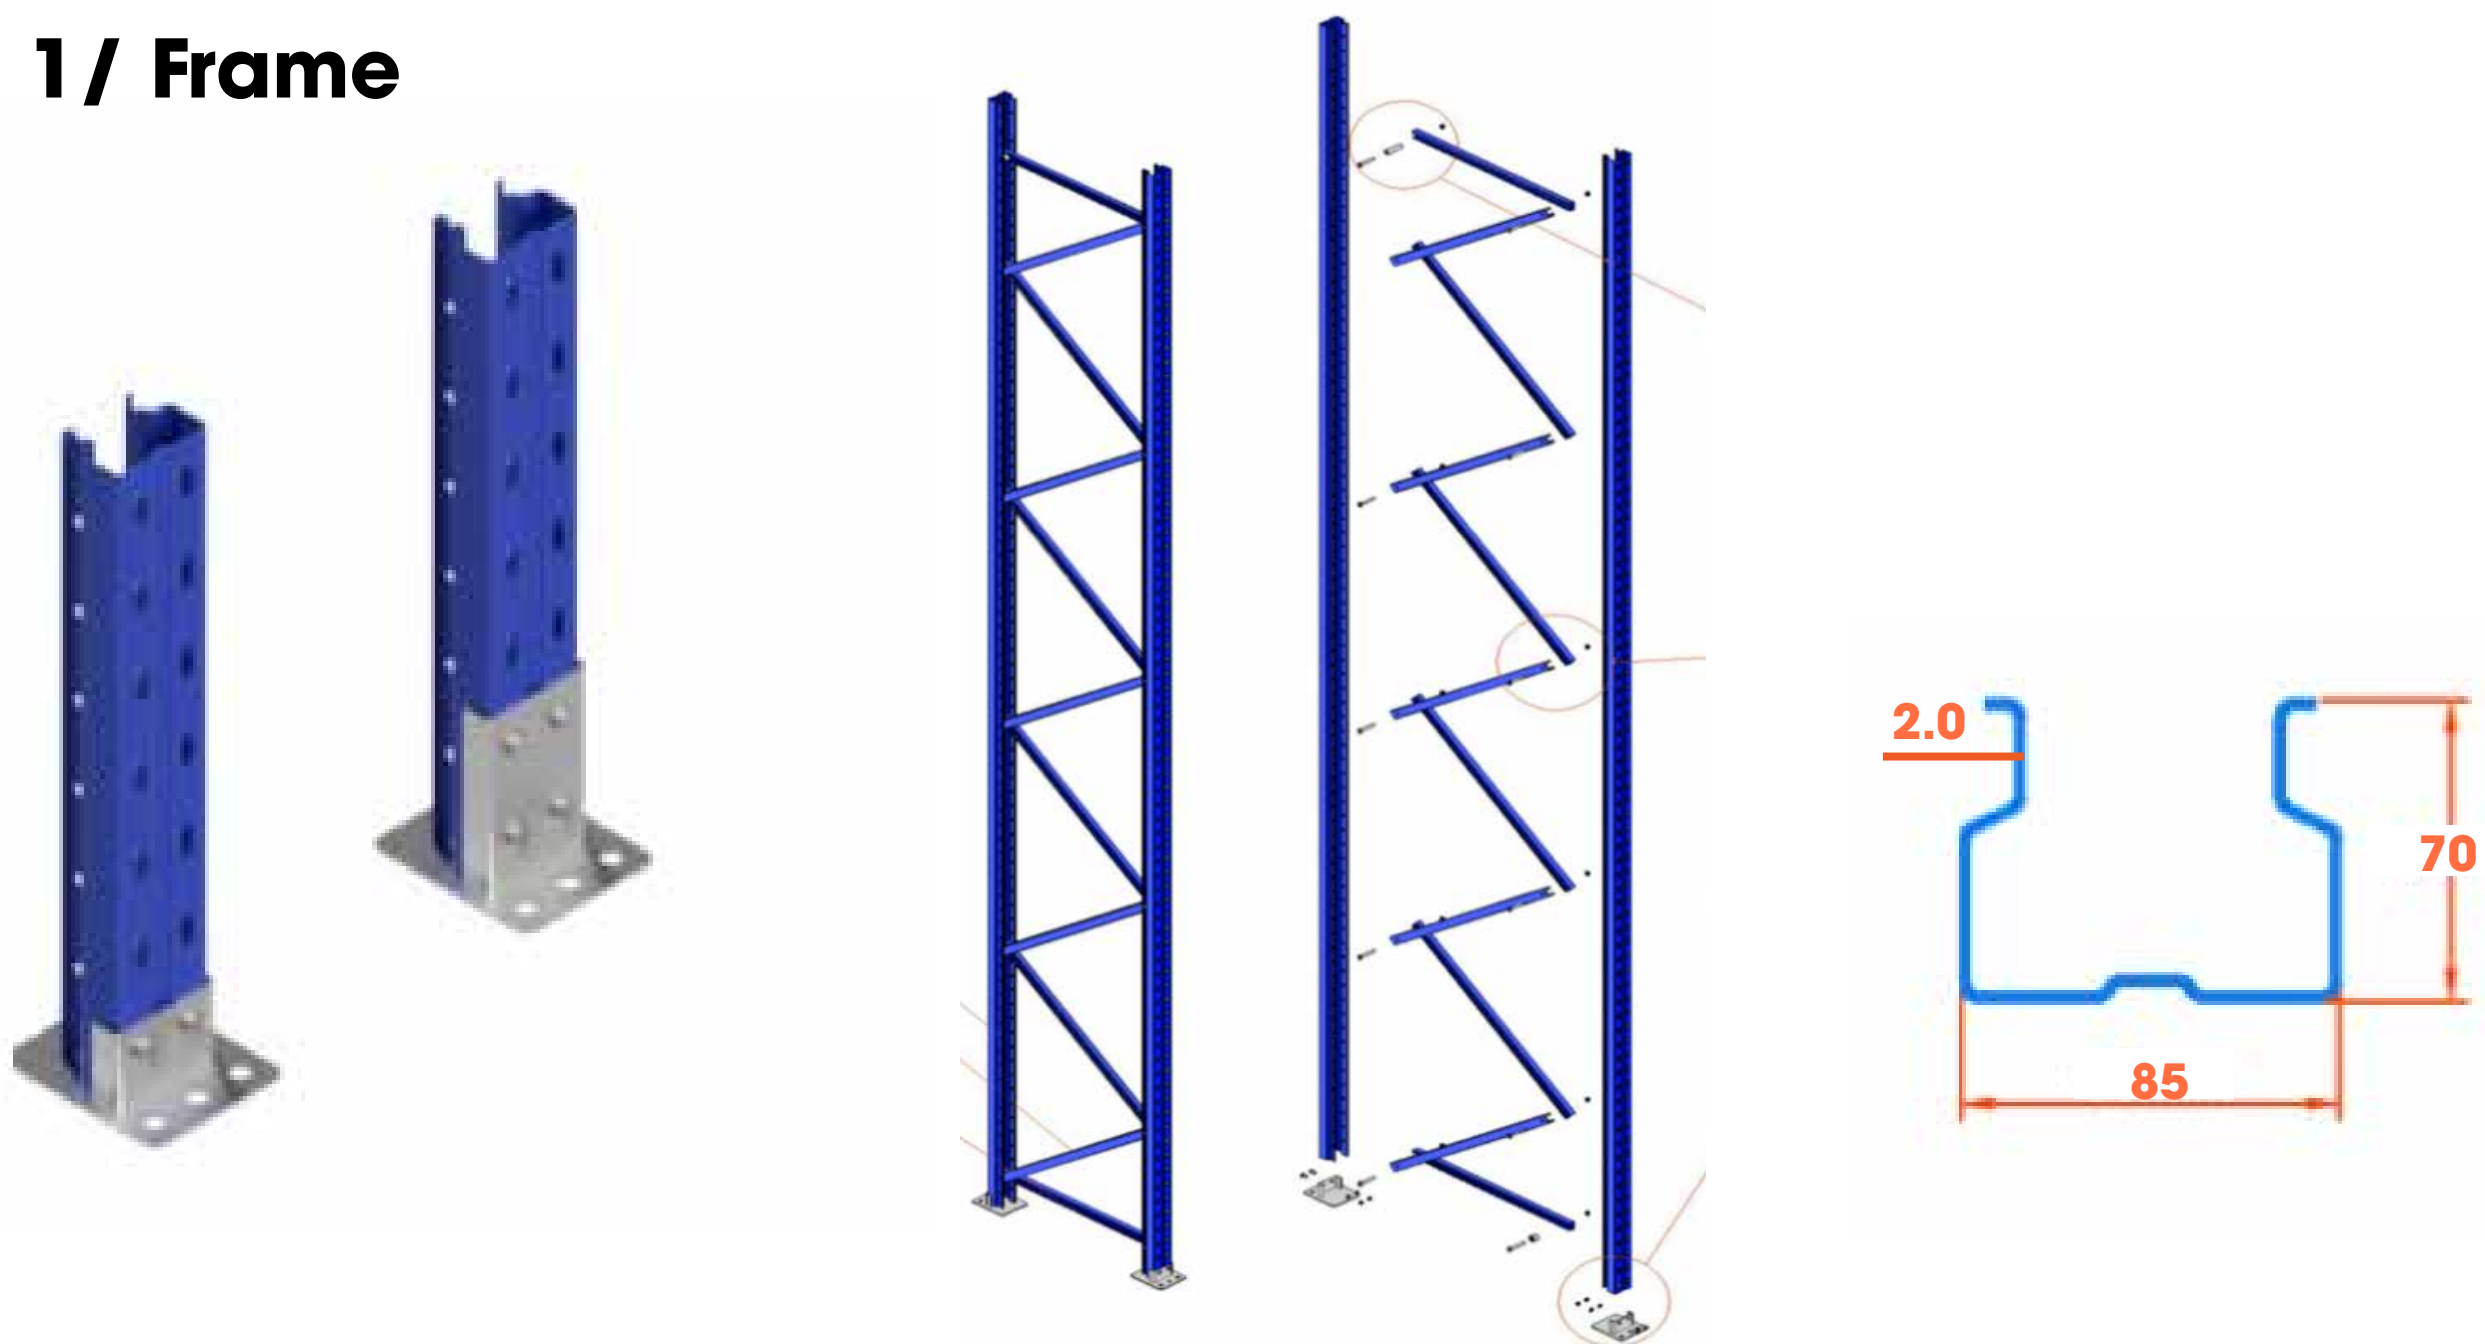

- Maximizing using space up to 70% of the warehouse area.
- Extremely high density storage.
- Suitable for storing a large amount of similar goods.
- Excellent solution for warehouses where goods selection is unimportant.
- The rack's parts are assembled by bolts, so it is convenient for moving, changing structure and upgrading when needed.

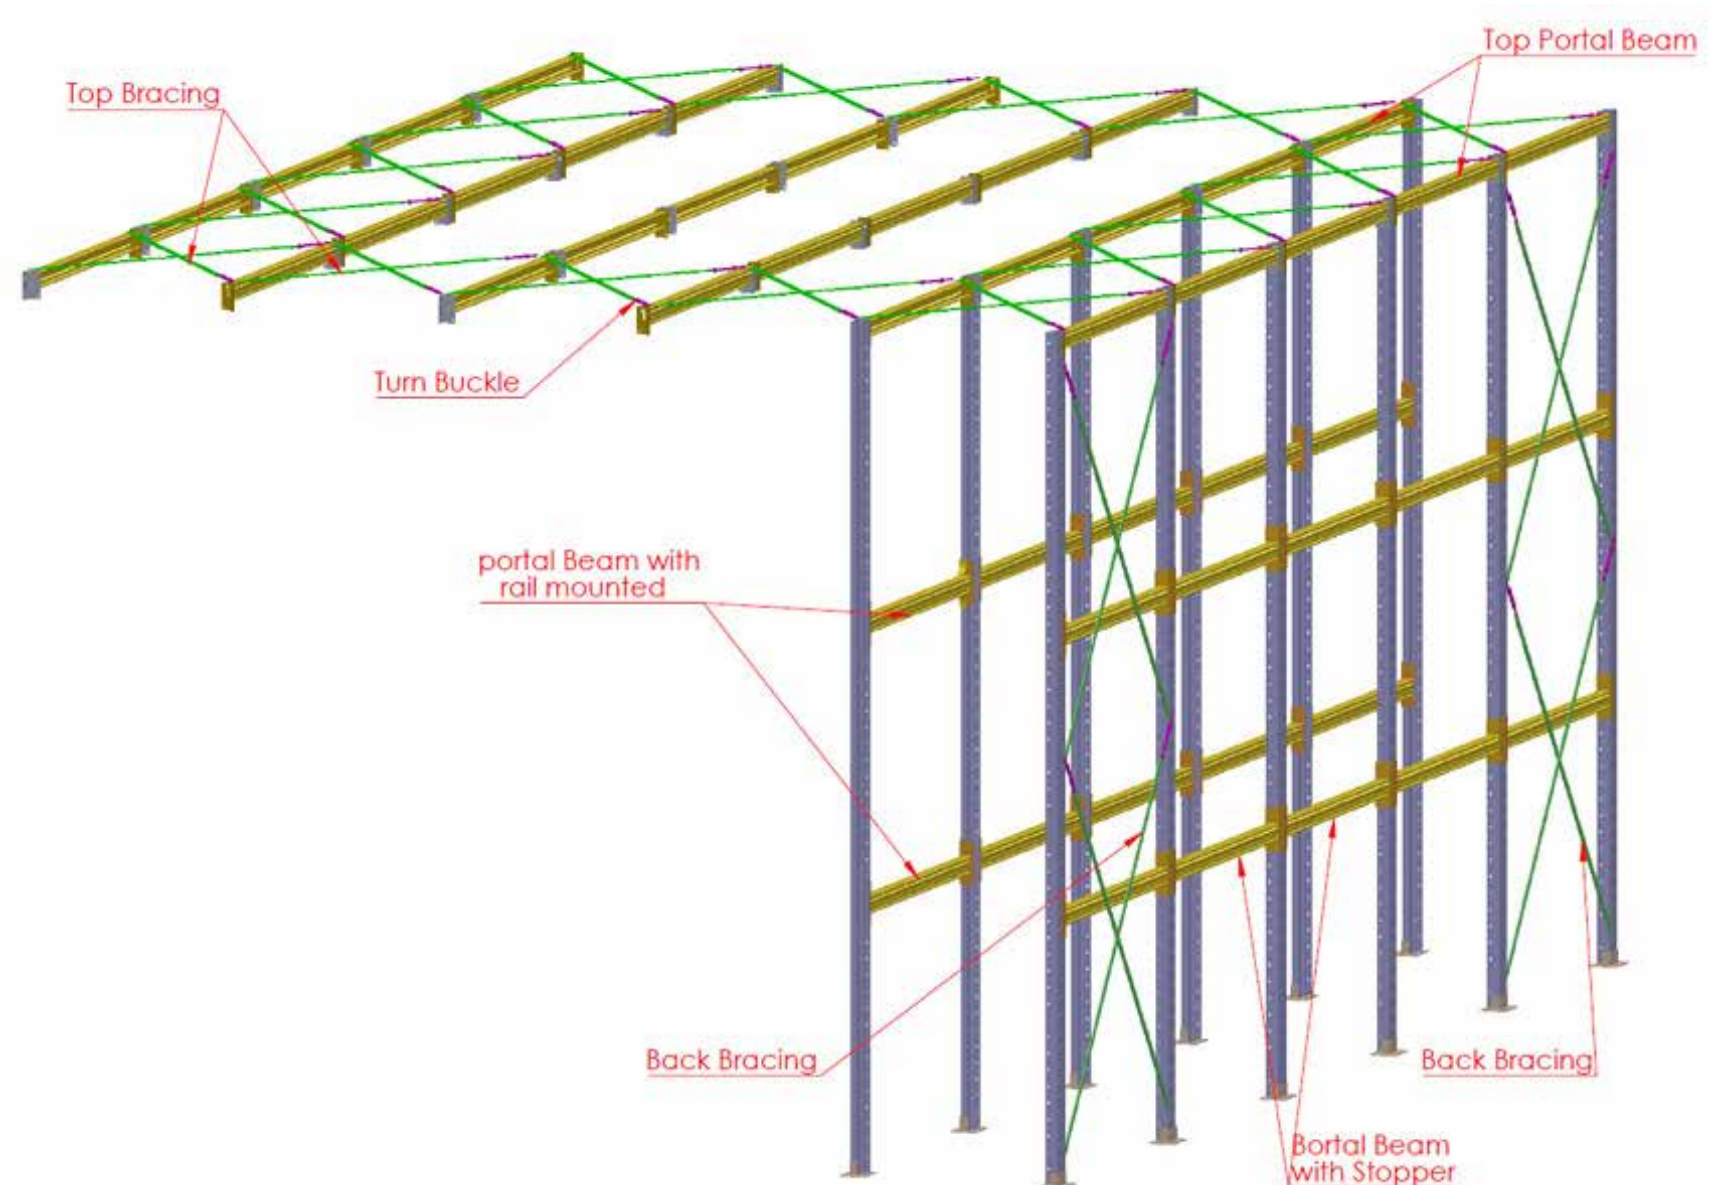

# DETAILED STRUCTURE OF DRIVE IN RACK

## 1 / Frame

Kích thước: 87\*79\*20t\*4600H

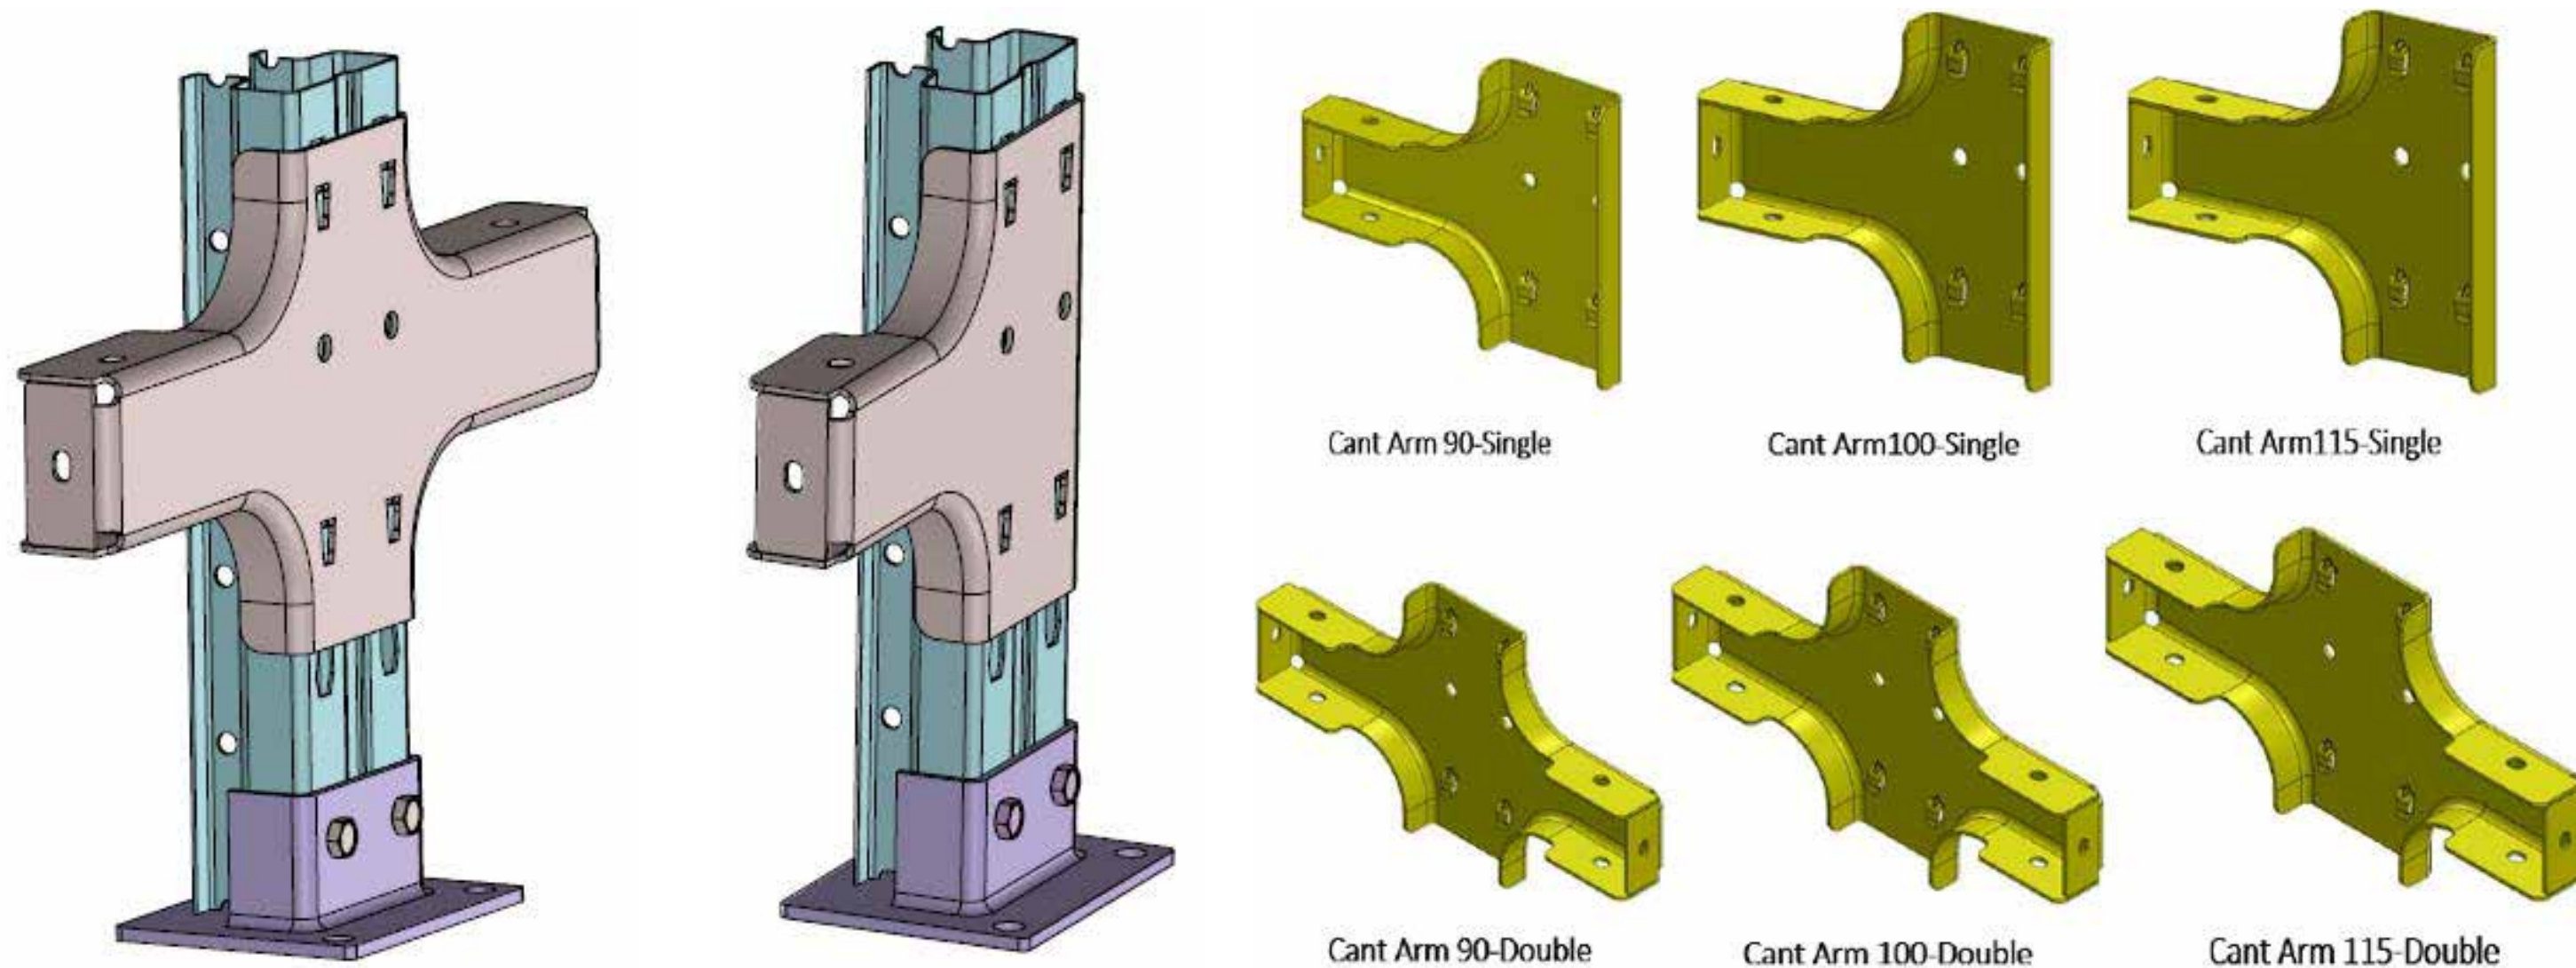

## 2. Cross Bracing:

Kích thước:  $\phi 34 \times 1.2 \times L$

### 3. Stub-arm:

### 4. Rails

## 5. Top Beam

Kích thước: 125\*45\*1.5

## 6. Protector

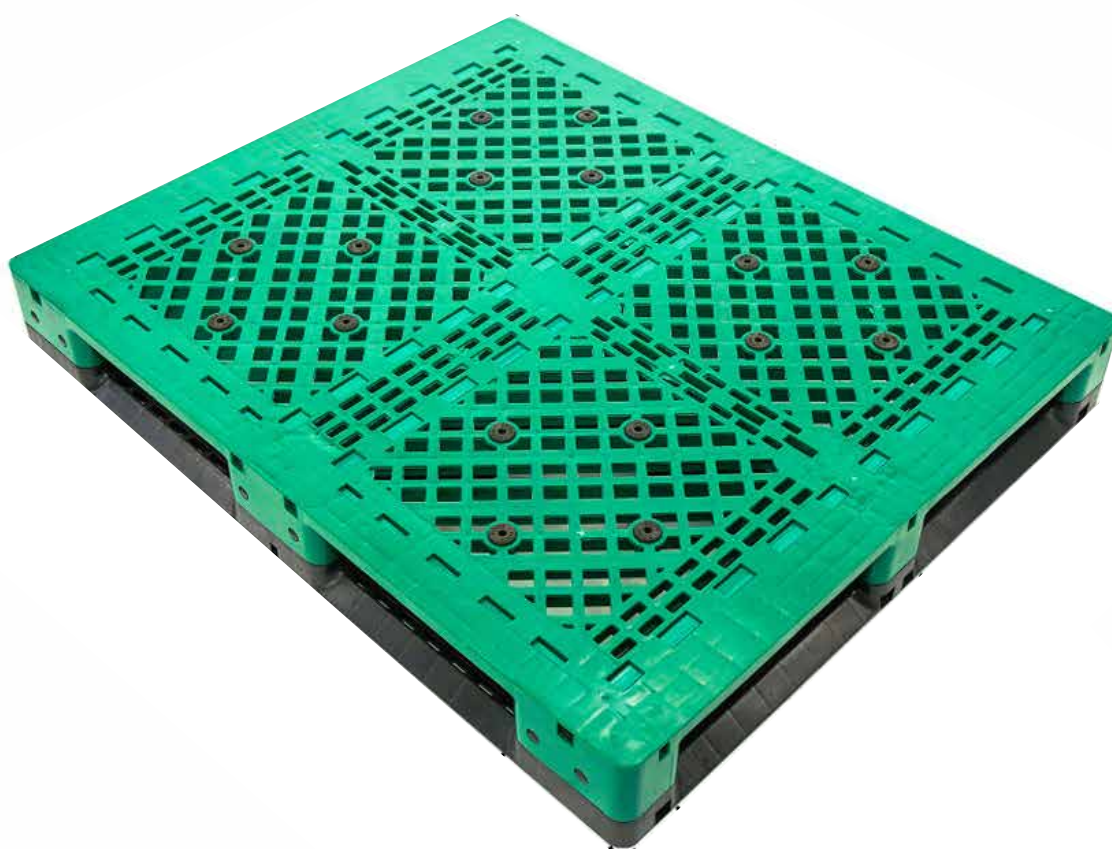

## 7/ Pallet specifications

Iron Pallet

Pallet specifications table			
Pallet type	L	W	H
Iron Pallet	1000	1000	135
	1100	1100	140
	1219	1000	140
	1200	900	135
Plastic Pallet	1200	1000	150
	1200	1000	78
	1000	600	100
	1000	1200	120

Unit: mm

Plastic Pallet

## PRODUCTION PROCESS

① Automatic Metal Press System

② Automatic Omega Standing Bar Press System

③ Beam roll forming machine

④ Automatic Welding system

⑤ Electro Static Power Coating

⑥ Packaging Process

// MEDIUM DUTY RACKS

## OUR CUSTOMERS

With more than 10 years of operation, we have provided our products to more than 10 thousand customers nationwide.
